OAHU RESIDENTIAL PROPERTY SALES RATE

Annual Unit Sales Rates Based on Prior 12 Months

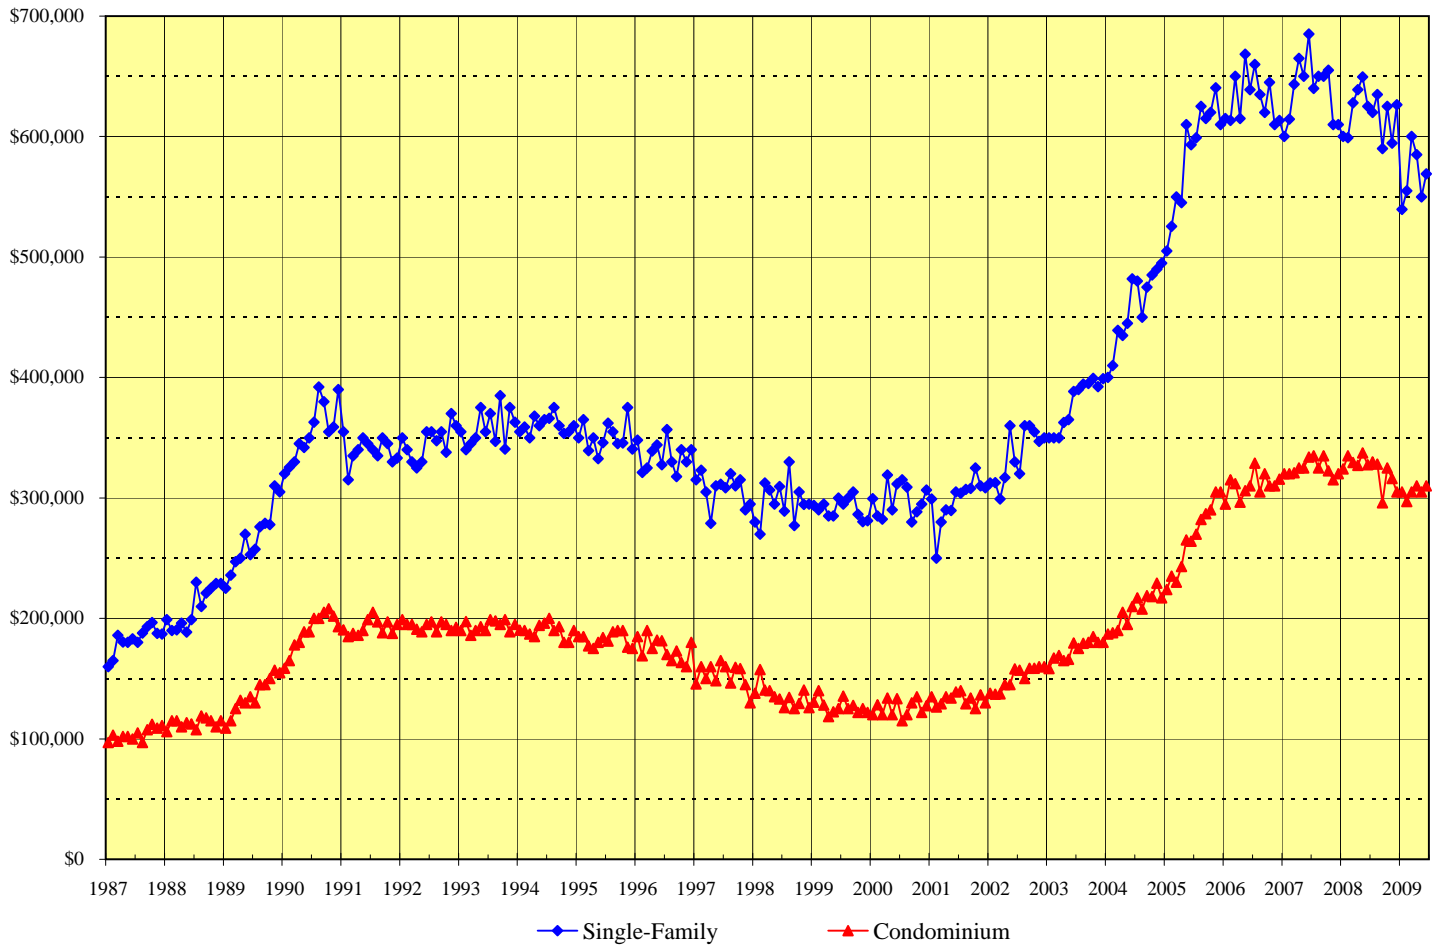

This chart is designed to more clearly show the general direction of the residential resales market on Oahu. It eliminates seasonal patterns that make monthly data difficult to read and interpret. Each point on this chart represents the total sales for the twelve months that end with the marked month. For example, the data points shown for December 2007 denote the total sales activity for the period January through December 2007. Similarly, the data points presented for June 2008 are the total sales for the 12-month period July 2007 through June 2008.

The points on this chart will change direction (i.e., go up or down) each month based on whether the newest month's sales activity is higher or lower than during the same month in the prior year. For example, if the sales reported for June 2008 are higher than those achieved in June 2007, the data points added to the chart for June 2008 will be higher than the May 2008 points.
