Public Remarks: Uniquely functional, this 10,065 sq ft property includes a 3-bed/1-bath, 846 sq ft dwelling on a 100-amp meter and a separate 1,283 sq ft workshop and garage on its own 200-amp meter. The workshop and garage space features a fully permitted wet bar and full bathroom, with an in-progress permit for an additional wet bar. The garage and shop are currently under review with DPP for re-designation as a single-family home. This CMU-style, load-bearing, post-free construction would be extremely difficult to reproduce economically in today's inflated construction market — at current build costs of roughly \$500 per square foot, replacing the 1,283 sq ft structure alone would run north of \$600,000. This is a rare chance to own a versatile, income-, or multi-generational-ready compound in the heart of Kalihi Valley. **Sale Conditions:** None * [Photos](#), [History](#)
