</tr>
<tr>
<td>Resort mixed use</td>
<td>Resort mixed use precinct</td>
</tr>
</tbody>
</table>
Sec. 21-3.30 Zoning maps and interpretations.

(a) The director shall prepare zoning maps for the city. These maps shall be numbered and titled as listed below and, on adoption by ordinance, they shall be cited and referred to as follows:

<table>
<thead>
<tr>
<th>Zoning Map No.</th>
<th>Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Hawaii Kai</td>
</tr>
<tr>
<td>2</td>
<td>Kahala—Kuliouou</td>

</tr>
<tr>
<td>24</td>
<td>Waimanalo</td>
</tr>
</tbody>
</table>

On adoption, the zoning designations shown on the map shall be the zoning classification of all parcels on the map and shall supersede any previous zoning classification. The zoning maps may also contain height limits for certain identified parcels of land or land areas; when there is a difference between height limits specified in this chapter and heights shown on the zoning maps, the maps shall prevail.

(b) Whenever uncertainty exists about the boundary lines of a district, the following rules shall apply:

1. When a discrepancy exists between a district boundary shown on the adopted zoning map and that which is described in the text of an ordinance establishing the boundary, the text of the ordinance shall be the final authority.

2. Notwithstanding subsection (b)(1), district boundaries which appear to follow center lines of streets, easements, railroad rights-of-way, waterways and similar features shall be construed as following such center lines.

3. Where district boundaries appear to follow street, lot, property or other lines of similar nature, they shall be construed as following those lines, provided that in the event of closure of a street or alley by the city, where the district boundary is indicated as other than the center line of such street or alley, it shall be construed as having been at the center line.

4. Where district boundaries appear parallel or perpendicular to, or appear as extensions of center lines, property lines or other features, they shall be so construed.

5. Where district boundaries do not appear to follow center lines, street, lot, property or other lines of similar nature or do not appear to be extensions of such lines or are not described within any ordinance, the location of these boundaries shall be determined by a measurement of distances shown on the adopted zoning map according to its scale.

6. Where the street layout on the ground varies from the street layout on the adopted zoning map, or other circumstances not covered by any of the above situations, the director shall determine the location of the boundary in question in accordance with the intent of the zoning ordinance.

7. Where district boundaries are along the ocean, the boundary shall be construed to follow the shoreline as confirmed by the state surveyor.

(c) Lands unclassified by the adopted zoning map and for which none of the rules of interpretation are applicable shall be construed as being within the P-2 general preservation district until otherwise rezoned.

(d) The director shall preserve the adopted zoning maps and shall maintain them in current form. The director shall see that the maps are updated as soon as practicable after the effective date of any ordinance adopting an amendment and the ordinance number of each amendment shall be noted on
the map. No person shall make any change in the adopted zoning map except by authorization of the
director, in accordance with the procedures and requirements set forth in this chapter.

(e) The director may adjust boundary lines of a district or precinct under the following conditions:
(1) The change does not result in an increase or decrease in any zoning district affecting
more than five percent or one acre of any zoning lot, whichever is less;
(2) The resulting boundary adjustment is in conformance with the general plan and
development plan; and
(3) The resulting boundary adjustment does not confer more than a five percent net increase
in development potential, as measured by the number of dwelling units or floor area, as
permitted by the applicable zoning districts.

The director shall notify in writing the property owner(s) affected by the boundary line adjustment.

(f) The director may adjust boundary lines of a district or precinct to coincide with a state land use
commission boundary interpretation, when the interpretation results in an increase in the more
restrictive state land use district. In determining the appropriate district or precinct, the director shall
take into account surrounding zoning and the intent of the affected state land use district.

(Added by Ord. 99-12)

Sec. 21-3.40 Preservation districts—Purpose and intent.
(a) The purpose of the preservation districts is to preserve and manage major open space and recreation
lands and lands of scenic and other natural resource value.
(b) It is intended that all lands within a state designated conservation district be zoned P-1 restricted
preservation district.
(c) The purpose of creating the F-1 military and federal preservation district is to identify areas in
military or federal government use and to permit the full range of military or federal government
activities.
(d) Should lands be removed from either the state-designated conservation district or from federal
jurisdiction, all uses, structures and development standards shall be as specified for the P-2 general
preservation district.
(e) It is also the intent that lands designated urban by the state, but well suited to the functions of
providing visual relief and contrast to the city's built environment or serving as outdoor space for the
public's use and enjoyment be zoned P-2 general preservation district. Areas unsuitable for other
uses because of topographical considerations related to public health, safety and welfare concerns
shall also be placed in this district.

(Added by Ord. 99-12)

Sec. 21-3.40-1 Preservation uses and development standards.
(a) Within the P-1 restricted preservation district, all uses, structures and development standards shall be
governed by the appropriate state agencies.
(b) Within an F-1 military and federal preservation district, all military and federal uses and structures
shall be permitted.
(c) Within the P-2 general preservation district, permitted uses and structures shall be as enumerated in
Table 21-3.
(d) Within the P-2 general preservation district, development standards shall be as enumerated in Table
21-3.1.
(e) Additional Development Standards.
(1) Height. The maximum height may be increased from 15 to 25 feet if height setbacks are
provided.
(2) Height Setbacks. Any portion of a structure exceeding 15 feet shall be set back from
every side and rear buildable area boundary line one foot for each two feet of additional
height above 15 feet (see Figure 21-3.1).

(Added by Ord. 99-12)

Sec. 21-3.50 Agricultural districts—Purpose and intent.
(a) The purpose of the agricultural districts is to maintain a strong agricultural economic base, to prevent
unnecessary conflicts among incompatible uses, to minimize the cost of providing public
improvements and services and to manage the rate and location of physical development consistent
with the city's adopted land use policies. To promote the viability and economic feasibility of an
existing agricultural operation, accessory agribusiness activities may be permitted on the same site as
an adjunct to agricultural uses. These accessory activities must be compatible with the on-site
agricultural operation and surrounding land uses.
(b) The intent of the AG-1 restricted agricultural district is to conserve and protect important agricultural
lands for the performance of agricultural functions by permitting only those uses which perpetuate
the retention of these lands in the production of food, feed, forage, fiber crops and horticultural
plants. Only accessory agribusiness activities which meet the above intent shall be permitted in this
district.
(c) The following guidelines shall be used to identify lands which may be considered for the AG-1
restricted agricultural district:
(1) Lands which are within the state designated agricultural district and designated
agriculturally by adopted city land use policies;
(2) Lands which are predominantly classified as prime or unique under the agricultural lands of importance to the State of Hawaii system; and

(3) Lands where a substantial number of parcels are more than five acres in size.

d) The intent of the AG-2 general agricultural district is to conserve and protect agricultural activities on smaller parcels of land.

e) The following guidelines shall be used to identify lands which may be considered for the AG-2 general agricultural district:

(1) Lands which are in the state designated agricultural or urban district and designated agricultural by adopted city land use policies;

(2) Lands which are predominantly classified as other under the agricultural lands of importance to the State of Hawaii system; and

(3) Lands which are used or are suitable for agricultural purposes and where a substantial number of parcels are less than five acres in size.

(Added by Ord. 99-12; Am. Ord. 02-63)

Sec. 21-3.50-1 Agricultural clusters.

To promote economy of services and utilities and the most efficient use of the remainder area for agricultural pursuits, agricultural clusters shall be permitted in any agricultural district. (Added by Ord. 99-12)

Sec. 21-3.50-2 Agricultural cluster--Site standards.

(a) The minimum land area required for an AG-1 district agricultural cluster shall be 15 contiguous acres. The minimum land area required for an AG-2 district agricultural cluster shall be six contiguous acres.

(b) The maximum number of farm dwellings in an AG-1 district agricultural cluster shall not exceed one unit per five acres. The maximum number of farm dwellings in an AG-2 district agricultural cluster shall not exceed one unit per two acres.

(c) Within agricultural clusters, detached, duplex and multifamily dwellings shall be permitted. Multifamily dwellings shall not exceed four dwelling units in any structure.

(d) Within an agricultural cluster, all principal, accessory and conditional uses and structures permitted within the AG-1 restricted agricultural district and AG-2 general agricultural district shall be permitted, subject to the minimum standards and conditions specified in this chapter for these uses.

(e) Within an agricultural cluster each dwelling may be sited on a lot not to exceed 5,000 square feet. For structures with more than one dwelling unit, the maximum lot size shall be a multiple of 5,000 square feet per dwelling.

(f) Height and yards shall be the same as permitted in AG-1 and AG-2 districts.

(g) Parking, loading and sign requirements shall be specified in the approval of the agricultural cluster plan.

(Added by Ord. 99-12)

Sec. 21-3.50-3 Agricultural cluster--Application requirements.

(a) The application shall be accompanied by:

(1) Project name;

(2) A location map showing the project in relation to the surrounding area;

(3) (A) An analysis of agricultural use of the proposed cluster, based on projected sales prices and terms, marketability, soils analysis, availability of water, consideration of climate, rainfall and other factors related to agricultural productivity, sufficient to demonstrate that agricultural use will constitute the primary activity undertaken on the land;

(B) The director shall refer the proposal for review and commentary of this analysis to the state department of agriculture or appropriate soil and water conservation district;

(4) A site plan showing:

(A) Metes and bounds of the site, prepared and certified by a registered engineer or surveyor, including any deed restrictions;

(B) Total area of project, and if applicable, lot layout and approximate dimensions, lot number of each lot, area of each lot, proposed use of each lot and total number of lots;

(C) Locations, names, dimensions, approximate gradients and radius of curves of existing and proposed streets within and adjacent to the project; approximate location and area dimensions of existing and proposed easements; existing and proposed drainage facilities; existing and proposed utilities, including sewers, water, electric, telephone and refuse;

(D) Location, size, spacing, setbacks and dimensions of all existing and proposed structures and improvements, including the number and type of dwelling units;

(E) The shoreline, shoreline setback lines, beach access, and stream and other setback lines, when applicable;

(F) Location with notations, and the sizes of all parcels of land, including streets, improvements, facilities and easements, proposed to be dedicated to the city,
or whether the streets, improvements, facilities and easements are to be private;

(G) Finished condition to be achieved by proposed grading shown by contours, cross sections, spot elevations or other means, and estimated quantities of cut and fill. Elevations shall be marked on such contours based on city data;

(5) Verification by the board of water supply of the availability of sufficient agricultural quality water to support agricultural use, whether such water is to be supplied by the board or another water supplier;

(6) Draft covenants, leases, agreements of sale, mortgages and other instruments of conveyance requiring lot purchasers to maintain land in agricultural use in conformity with federal, state and city laws and regulations, enforceable by the city and either by the applicant, lessee or owner, or an association composed of all lot owners and indicating applicable laws and penalties for violation thereof. All subsequent sales of property, lease and rental agreements shall include these restrictions;

(7) Notice of all restrictions contained in laws and regulations to be provided to all prospective subdivision lot purchasers, in the sales agreement, deeds, covenants and other instruments of conveyance;

(8) Notice that building permit applications shall include an agricultural plan for farm dwellings indicating how feasible agricultural use on the lots will be carried out within a period not to exceed five years, to be provided in the sales agreements, deeds, covenants and other instruments of conveyance;

(9) Other information and documentation as may be required by the director to review and ensure feasible agricultural use within the agricultural cluster in conformity with applicable federal, state, and city laws and regulations;

(10) Proposals for maintenance and conservation of all common elements.

(b) All agricultural clusters shall be processed in accordance with Section 21-2.110-1.

(c) The director shall approve, modify or deny the agricultural cluster application based on whether the application meets the intent of the agricultural district, the intent of the agricultural cluster provision, and the applicant's compliance with requirements of other government agencies.

(d) The director shall approve final drawings before issuance of building permits in accordance with the approved plan. Before approval of the agricultural cluster plan final drawings by the director, certified deed covenants and/or condominium property regime documents binding any lessees or buyers to the conditions of approval imposed by the director shall be submitted to the department.

(Added by Ord. 99-12)

Sec. 21-3.50-4 Agricultural uses and development standards.

(a) Within the agricultural districts, permitted uses and structures shall be as enumerated in Table 21-3.

(b) Within the agricultural districts, development standards shall be as enumerated in Table 21-3.1.

(c) Additional Development Standards.

(1) Height. The maximum height may be increased from 15 to 25 feet if height setbacks are provided.

(2) Height Setbacks. Any portion of a structure exceeding 15 feet shall be set back from every side and rear buildable area boundary line one foot for each two feet of additional height above 15 feet (see Figure 21-3.1).

(Added by Ord. 99-12)

Sec. 21-3.60 Country district--Purpose and intent.

(a) The purpose of the country district is to recognize and provide for areas with limited potential for agricultural activities but for which the open space or rural quality of agricultural lands is desired. The district is intended to provide for some agricultural uses, low density residential development and some supporting services and uses.

(b) It is the intent that basic public services and facilities be available to support the district but that the full range of urban services at urban standards need not be provided. Typically, the country district would be applied to areas outside the primary and secondary urban centers, which are identified by city-adopted land use policies.

(c) The following guidelines shall be used to identify lands which may be considered for this district:

(1) Lands which are within the state-designated urban district and designated either agricultural or residential by adopted city land use policies.

(2) Lands which are not predominately classified as prime, unique or other under the agricultural lands of importance to the State of Hawaii system.

(3) Lands where a substantial number of existing parcels are less than two acres in size.

(4) Lands where existing public facility capacities preclude more intense development.

(Added by Ord. 99-12)

Sec. 21-3.60-1 Country clusters.

To promote economy of services and utilities and to encourage the retention of large tracts of open space or agricultural lands which contribute to rural character, country clusters shall be permitted in any country district. (Added by Ord. 99-12)

Sec. 21-3.60-2 Country cluster--Site standards.
(a) The minimum land area required for a country cluster shall be three contiguous acres.
(b) The maximum number of dwelling units in a country cluster shall not exceed one per one acre.
(c) Within country clusters, detached, duplex and multifamily dwellings shall be permitted. Multifamily dwellings shall not exceed four dwelling units in any structure.
(d) Within a country cluster, all principal, accessory and conditional uses and structures permitted within the country district and all country district development standards shall apply except those relating to yards and lot dimensions. Conditional uses shall be subject to the standards in Article 4.
(e) The minimum size of a lot of record for dwellings shall be 5,000 square feet. The following development standards shall apply to dwelling lots:
   (1) Front yards shall be a minimum of 10 feet.
   (2) Side and rear yards shall be a minimum of five feet.
(f) Parking, loading and sign requirements shall be specified in the approval of the country cluster plan.
(g) All other underlying district development standards shall apply.
(Added by Ord. 99-12)

Sec. 21-3.60-3 Country cluster--Application requirements.
(a) The application shall be accompanied by:
   (1) A project name;
   (2) A location map showing the project in relation to the surrounding area and the location of all major community facilities within a one-half-mile radius of the project;
   (3) A prose description of the project including: objectives of the cluster, unique site conditions and development schedule;
   (4) A site plan showing:
      (A) Metes and bounds of the site, prepared and certified by a registered engineer or surveyor, including any deed restrictions;
      (B) Total area of project, and if applicable, lot layout and approximate dimensions, lot number of each lot, area of each lot, proposed use of each lot and total number of lots;
      (C) Locations, names, dimensions, approximate gradients and radius of curves of existing and proposed streets within and adjacent to the project; approximate location and area dimensions of existing and proposed easements; existing and proposed drainage facilities; existing and proposed utilities, including sewers, water, electric, telephone and refuse;
      (D) Approximate location and general description of any historical or significant landmarks or other natural features, and trees with a trunk diameter of six inches or more at five feet above ground, and an indication of the proposed retention or disposition of such features;
      (E) Location, size, spacing, setbacks and dimensions of all existing and proposed structures and improvements, including the number and type of dwelling units;
      (F) The shoreline, shoreline setback lines, beach access, and stream and other setback lines, when applicable;
      (G) Location with notations, and the sizes of all parcels of land, including streets, improvements, facilities and easements, proposed to be dedicated to the city, or whether the streets, improvements, facilities and easements are to be private;
   (5) Other information and documentation as may be required by the director to review and ensure the proposed project is in conformity with applicable federal, state, and city laws and regulations;
   (6) Proposals for maintenance and conservation of all common elements.
(b) Country clusters shall be processed in accordance with Section 21-2.110-1.
(c) The director shall approve, modify or deny the country cluster application based on whether the application meets the intent of the country district, the intent of the country cluster provision, and the applicant's compliance with requirements of other government agencies.
(d) The director shall approve final drawings before issuance of building permits in accordance with the approved plan. Before approval of the country cluster final drawings by the director, certified deed covenants and/or condominium property regime documents binding any lessees or buyers to the conditions of approval imposed by the director shall be submitted to the department.
(Added by Ord. 99-12)

Sec. 21-3.60-4 Country uses and development standards.
(a) Within the country district, permitted uses and structures shall be in accordance with Table 21-3.
(b) Within the country district, development standards shall be in accordance with Table 21-3.1.
(c) Additional Development Standards.
   (1) Height. The maximum height may be increased from 15 to 25 feet if height setbacks are provided.
   (2) Height Setbacks. Any portion of a structure exceeding 15 feet shall be set back from every side and rear buildable area boundary line one foot for each two feet of additional height above 15 feet (see Figure 21-3.1).
Structures on lots with a slope of 15 percent or more shall be governed by a maximum building envelope running parallel to grade at 30 feet in height measured vertically; and which intersects vertical front, rear and side yard planes, each 20 feet in height set at the respective buildable area boundary line. These intersections shall each be made at an angle of 60 degrees measured from the top of the respective yard plane (see Figure 21-3.2).

</table>

¹Heights above the minima of the given range may require height setbacks or may be subject to other requirements. See the appropriate section for the zoning district for additional development standards concerning height.

²For nonagricultural structures.

³Fifteen feet for nonagricultural structures and dwellings; up to 25 feet are permitted if height setbacks are provided.

(Added by Ord. 99-12)

Sec. 21-3.70 Residential districts--Purpose and intent.
(a) The purpose of the residential district is to allow for a range of residential densities. The primary use shall be detached residences. Other types of dwellings may also be allowed, including zero lot line, cluster and common wall housing arrangements. Nondwelling uses which support and complement residential neighborhood activities shall also be permitted.
(b) The intent of the R-20 and R-10 districts is to provide areas for large lot developments. These areas would be located typically at the outskirts of urban development and may be applied as a transitional district between preservation, agricultural or country districts and urban districts. They would also be applied to lands where residential use is desirable but some development constraints are present.
(c) The intent of the R-7.5, R-5 and R-3.5 districts is to provide areas for urban residential development. These districts would be applied extensively throughout the island.

(Added by Ord. 99-12)

Sec. 21-3.70-1 Residential uses and development standards.
(a) Within the residential districts, permitted uses and structures shall be as enumerated in Table 21-3.
(b) Within the residential districts, development standards shall be as enumerated in Table 21-3.2.
(c) Additional Development Standards.
(1) Maximum Height. The maximum height of structures shall be determined by the building envelope created as the result of the intersection of two planes. The first plane shall be measured horizontally across the parcel at 25 feet above the high point of the buildable area boundary line. The second plane shall run parallel to grade, as described in Section 21-4.60(b), measured at a height of 30 feet. If the two planes do not intersect, then the building envelope shall be determined by the first plane (see Figure 21-3.10).
(2) Height Setbacks.
   (A) Any portion of a structure exceeding 15 feet shall be set back from every side and rear buildable area boundary line one foot for each two feet of additional height over 15 feet (see Figure 21-3.10); and
   (B) Any portion of a structure exceeding 20 feet shall be set back from the front buildable area boundary line one foot for every two feet of additional height over 20 feet.

</table>

1 For duplex lots, 5 feet for any portion of any structure not located on the common property line; the required side yard is zero feet for that portion of the lot containing the common wall.

2 Heights above the minima of the given range may require height setbacks or may be subject to other requirements. See the appropriate section for the zoning district for additional development standards concerning height.

Sec. 21-3.80 Apartment districts—Purpose and intent.
(a) The purpose of the apartment districts is to allow for a range of apartment densities and a variety of living environments. The predominant uses include multifamily dwellings, such as common wall housing, walkup apartments and high-rise apartments. Uses and activities that complement apartment use are permitted, including limited social services.
(b) The intent of the A-1 low density apartment district is to provide areas for low density, multifamily dwellings. It may be applied as a buffer between residential districts and other more intense, non-compatible districts. It would be applicable throughout the city.
(c) The intent of the A-2 medium density apartment district is to provide areas for medium density, multifamily dwellings. It is intended primarily for concentrated urban areas where public services are centrally located and infrastructure capacities are adequate.
(d) The intent of the A-3 high density apartment district is to provide areas for high density, high-rise, multifamily dwellings. It is intended for central urban core areas where public services and large infrastructure capacities are present.

Sec. 21-3.80.1 Apartment district uses and development standards.
(a) Within the apartment districts, permitted uses and structures shall be as enumerated in Table 21-3.
(b) Within the apartment districts, development standards shall be as enumerated in Table 21-3.3.
(c) Additional Development Standards.
(1) Except for necessary access drives and walkways, all yards shall be landscaped.
(2) Optional Yard Siting. In the A-2 and A-3 districts, parking lots and garages may extend to side and rear property lines, provided the following requirements are met:
   (A) An area or areas of open space equivalent to the area to be used for parking or accessory use structures are provided elsewhere on the zoning lot. This open space shall be maintained in landscaping, except for drives or walkways necessary for access to adjacent streets. Parking may overhang the open space up to three feet if wheel stops are installed. A minimum of 50 percent of the open space shall be contiguous to the street frontage abutting the zoning lot;
   (B) Any parking floor in the 10 feet adjacent to the property line shall not be more than four feet above existing grade; and
   (C) Landscaping required under Section 21-4.70 is provided and maintained.
(3) Height Setbacks. In the A-2 and A-3 districts, for any portion of a structure over 40 feet in height, additional side and rear setbacks shall be provided; for each 10 feet of
additional height or portion thereof, an additional one-foot setback shall be provided. The additional setback shall be a continuous plane from the top of the structure to the height of 40 feet above grade (see Figure 21-3.3).

(Added by Ord. 99-12)

Sec. 21-3.90 Apartment mixed use districts—Purpose and intent.
The purpose of the apartment mixed use districts is to allow some commercial uses in apartment neighborhoods. The additional commercial uses shall be permitted under varying intensities and are intended to support the daily and weekly commercial service needs of the neighborhood, conserve transportation energy by lessening automobile dependency, create more diverse neighborhoods and optimize the use of both land and available urban services and facilities. Mixing may occur horizontally and vertically, but controls are established to maintain the character of these neighborhoods primarily as apartment neighborhoods. (Added by Ord. 99-12)

Sec. 21-3.90-1 Apartment mixed use district uses and development standards.
(a) Within apartment mixed use districts, all uses and structures shall be as enumerated in Table 21-3.
(b) Within the apartment mixed use districts, development standards shall be as enumerated in Table 21-3.3.
(c) Additional Development Standards.
(1) Except for necessary access drives and walkways, all yards shall be landscaped.
(2) Optional Yard Siting. In the AMX-2 and AMX-3 districts, parking lots and garages may extend to side and rear property lines, provided the following requirements are met:
   (A) An area or areas of open space equivalent to the area to be used for parking or accessory use structures are provided elsewhere on the zoning lot. This open space shall be maintained in landscaping, except for drives or walkways necessary for access to adjacent streets. Parking may overhang the open space up to three feet if wheel stops are installed. A minimum of 50 percent of the open space shall be contiguous to the street frontage abutting the zoning lot;
   (B) Any parking floor in the 10 feet adjacent to the property line shall not be more than four feet above existing grade; and
   (C) Landscaping required under Section 21-4.70 is provided and maintained.
(3) Height Setbacks. In the AMX-2 and AMX-3 districts, for any portion of a structure over 40 feet in height, additional side and rear setbacks shall be provided; for each 10 feet of additional height or portion thereof, an additional one-foot setback shall be provided. The additional setback shall be a continuous plane from the top of the structure to the height of 40 feet above grade (see Figure 21 3.3).
(4) Commercial Use Density and Location.
   (A) The floor area of any use marked with a superscript-1 under Table 21-3, either occurring as a single use on a zoning lot or in combination with other uses, shall not exceed an FAR as enumerated in Table 21-3.3, and such floor area shall be counted as part of the total FAR allowed.
   (B) Where these commercial uses are integrated with dwelling uses, pedestrian access to the dwellings shall be independent from other uses and shall be designed to enhance privacy for residents and their guests. No floor shall be used for both dwelling and commercial purposes.

1There shall be no minimum lot area, width or depth for off-site parking facilities.
2There shall be no minimum lot area for off-site parking facilities.
3Five feet for detached dwellings and duplexes and 10 feet for other uses.
4For duplex lots, 5 feet for any portion of any structure not located on the common property line; the required side yard is zero feet for that portion of the lot containing the common wall.
5Heights for detached dwellings and duplexes shall comply with residential height and height setback requirements.

n/a = Not applicable
(Added by Ord. 99-12)

### Sec. 21-3.100 Resort district--Purpose and intent.
The purpose of the resort district is to provide areas for visitor-oriented destination centers. Primary uses are lodging units and hotels and multifamily dwellings. Retail and business uses that service visitors are also permitted. This district is intended primarily to serve the visitor population, and should promote a Hawaiian sense of place. (Added by Ord. 99-12)

### Sec. 21-3.100-1 Resort uses and development standards.
(a) Within the resort district, permitted uses and structures shall be as enumerated in Table 21-3.
(b) Within the resort district, development standards shall be as enumerated in Table 21-3.4.
(c) Additional Development Standards.
(1) Except for necessary access drives and walkways, all front yards shall be landscaped.
(2) Optional Yard Siting. Parking lots and garages may extend to side and rear property lines, provided the following requirements are met:
(A) An area or areas of open space equivalent to the area to be used for parking or accessory use structures are provided elsewhere on the zoning lot. This open space shall be maintained in landscaping, except for drives or walkways necessary for access to adjacent streets. Parking may overhang the open space up to three feet if wheel stops are installed. A minimum of 50 percent of the open space shall be contiguous to the street frontage abutting the zoning lot;
(B) Any parking floor in the 10 feet adjacent to the property line shall not be more than four feet above existing grade; and
(C) Landscaping required under Section 21-4.70 is provided and maintained.
(3) Height Setbacks. For any portion of a structure over 30 feet in height, additional side and rear setbacks shall be provided; for each 10 feet of additional height or portion thereof, an additional one-foot setback shall be provided. The additional setback shall be a continuous plane from the top of the structure to the height of 30 feet above grade (see Figure 21-3.4).
(Added by Ord. 99-12)

### Sec. 21-3.110 Business districts--Purpose and intent.
(a) The purpose of the business districts is to set aside areas for commercial and business activities to meet and support the economic growth of the city. The districts provide for the buying and selling of goods and services, the transportation and distribution of commodities and other complementary economic activities. Other uses which are supportive of or compatible with business activities are
also permitted. These districts help to ensure a favorable business climate and support the economic and social well-being of city residents.

(b) The intent of the B-1 neighborhood business district is to provide relatively small areas which serve the daily retail and other business needs of the surrounding population. It is intended that this district be generally applied to areas within or adjacent to urban residential areas, along local and collector streets, but not along major travel routes or on a large scale basis. It would also be applied to rural and urban fringe town centers which may or may not be located along major travel routes.

(c) The intent of the B-2 community business district is to provide areas for community-wide business establishments, serving several neighborhoods and offering a wider range of uses than is permitted in the B-1 district. The intent is to apply this district to areas conveniently accessible by vehicular and pedestrian modes and served by adequate public facilities. Typically, this district would be applied to lots along major streets and in centrally located areas in urban and urban fringe areas.

(Added by Ord. 99-12)

Sec. 21-3.110-1 Business uses and development standards.

(a) Within the business districts, permitted uses and structures shall be as enumerated in Table 21-3.

(b) Within the business districts, development standards shall be as enumerated in Table 21-3.4.

(c) Additional Development Standards.

1. Except for necessary access drives and walkways, all yards shall be landscaped.
2. B-1 District Transitional Height Setback. Where a zoning lot adjoins a zoning lot in a residential district, the residential district height setbacks shall be applicable at the buildable area boundary line of the adjoining side of the B-1 zoning lot (see Figure 21-3.5).
3. B-2 District Transitional Height Setback.
   (A) Where a zoning lot adjoins a zoning lot in a residential, A-1 or AMX-1 district, the residential district height setback shall be applicable at the buildable area boundary line of the adjoining side of the B-2 zoning lot (see Figure 21-3.5).
   (B) Where a zoning lot adjoins a zoning lot in an A-2, A-3, AMX-2, AMX-3 or resort district, no portion of a structure shall exceed 40 feet in height along the buildable area boundary line on the adjoining side of the B-2 zoning lot, provided that additional height shall be permitted if the additional height is set back one foot from the buildable area boundary line for each 10 feet in height or fraction thereof. This setback shall be a continuous plane from the top of the structure to the beginning of the additional height (see Figure 21-3.5).
4. Street Setbacks. Within the B-2 district, no portion of a structure shall exceed a height equal to twice the distance from the structure to the vertical projection of the center line of any street (see Figure 21-3.7).
5. Open Space Bonus. Within the B-2 district:
   (A) For each square foot of public open space provided, five square feet of floor area may be added, exclusive of required yards;
   (B) For each square foot of arcade area provided, three square feet of floor area may be added, exclusive of required yards; and
   (C) Maximum density with open space bonuses shall not exceed an FAR as provided under Table 21-3.4.

(Added by Ord. 99-12)

Sec. 21-3.120 Business mixed use districts--Purpose and intent.

(a) The purpose of the business mixed use districts is to recognize that certain areas of the city have historically been mixtures of commercial and residential uses, occurring vertically and horizontally and to encourage the continuance and strengthening of this pattern. It is the intent to provide residences in very close proximity to employment and retail opportunities, provide innovative and stimulating living environments and reduce overall neighborhood energy consumption.

(b) The intent of the BMX-3 community business mixed use districts is to provide areas for both commercial and residential uses outside of the central business mixed use district and at a lower intensity than the central business mixed use district. Typically, this district would be applied to areas along major thoroughfares adjacent to B-2, BMX-4, A-3, AMX-2 and AMX-3 zoning districts. It is also intended that it be applied to areas where the existing land use pattern is already a mixture of commercial and residential uses, occurring horizontally, vertically or both.

(c) The intent of the BMX-4 central business mixed use district is to set apart that portion of Honolulu which forms the city's center for financial, office and governmental activities and housing. It is intended for the downtown area and not intended for general application. It provides the highest land use intensity for commerce, business and housing.

(Added by Ord. 99-12)

Sec. 21-3.120-1 BMX-4 business mixed use special height controls.

(a) Any development which is proposed to exceed a height limit of 350 feet shall comply with the following:
   (1) Minimum Project Size. The minimum project size shall be 35,000 square feet.
Site Plan. The request for additional height shall include a proposed site plan, which shall include the location and height of building towers, and shall take into consideration adjacent uses and structures. Specifically, the following principles shall be reflected in the site plan, and the applicant shall demonstrate how these principles are being met:

(A) Building towers shall not significantly obstruct or intrude on adopted public views.

(B) Proposed open spaces shall complement and relate to adjacent open spaces.

(C) Ground level parking lots and structures should not front streets. Where this is not possible, canopy and vertical form trees, hedges and other landscaping elements shall be provided to visually screen them.

(D) The additional tower height shall not unreasonably block the provision of light and air to other buildings and public open spaces, nor obliterate direct exposure to the sun in any given 24-hour period.

Public Open Space. A minimum of 35 percent of the lot area shall be devoted to public open space in accordance with Table 21-3.4.

Public Views. The additional tower height shall not significantly intrude on any adopted public views, including the view of the central business district from the Punchbowl lookouts.

Pedestrian Orientation. Project design at the ground level shall reflect a strong pedestrian orientation, especially fronting streets. Contributing elements include, but are not limited to:

(A) Arcades, with at least one-half of the arcade perimeter open or devoted to entrances and show windows.

(B) Public open spaces, with provisions for shade, seating areas, landscaping, water features and outdoor sculptures.

(C) Outdoor dining areas.

(D) Interesting paving design and finishes.

(E) Building materials, finishes and details which are human-scaled, nonglaring and not harsh.

Wind Analysis. The request for additional height shall include a wind study of the effects of towers over 350 feet, particularly anticipated impacts at the ground level. Where adverse impacts are anticipated, mitigative measures shall be included in the proposal.

Historic Resources. Any development which includes sites and/or structures on or eligible for inclusion on the national or state register of historic places or on the Oahu register of historic places shall be evaluated as to the feasibility and appropriateness of retaining the site and/or structure. For every square foot of building area of a site and/or structure on or eligible for inclusion on the national or state register of historic places or on the Oahu register of historic places, 10 square feet of additional floor area may be permitted above 350 feet of building height. This bonus shall be available even if the minimum open space requirements for subdivision (3) are not met.

FAA Clearance. The request for additional height shall include a statement from the Federal Aviation Administration that the proposed building heights will not interfere with the operation of the Honolulu International Airport.

Maximum Density. The maximum density as set forth in Table 21-3.4 shall not be exceeded.

For purposes of this section, an "adopted public view" is a view that has been recognized as significant or otherwise worthy of protection by an adopted ordinance, including Article 9.

Applications to exceed a height limit of 350 feet shall be processed pursuant to the requirements for major permits (special district), as set forth in Section 21-2.40-2.

(Added by Ord. 99-12)

Sec. 21-3.120-2 Business mixed use district uses and development standards.

(a) Within the business mixed use districts, permitted uses and structures shall be as enumerated in Table 21-3.

(b) Within the business mixed use districts, development standards shall be as enumerated in Table 21-3.4.

(c) Additional Development Standards.

(1) Except for necessary access drives and walkways, all yards shall be landscaped.

(2) BMX-3 District Transitional Height Setbacks.

(A) Where a zoning lot adjoins a zoning lot in a residential, A-1 or AMX-1 district, the residential district height setback shall be applicable at the buildable area boundary line of the adjoining side of the BMX-3 zoning lot (see Figure 21-3.5).

(B) Where a zoning lot adjoins a zoning lot in an A-2, A-3, AMX-2, AMX-3 or resort district, no portion of a structure shall exceed 40 feet in height along the buildable area boundary line on the adjoining side of the BMX-3 zoning lot, provided that additional height shall be permitted if the additional height is set back one foot from the buildable area boundary line for each 10 feet in height.
or fraction thereof. This setback shall be a continuous plane from the top of
the structure to the beginning of the additional height (see Figure 21-3.5).

(3) BMX-4 District Transitional Height Setback. Where a zoning lot adjoins a zoning lot in
a residential, apartment, apartment mixed use or resort district, the height setback of the
adjoining district shall be applicable at the buildable area boundary line of the adjoining
side of the BMX-4 lot (see Figure 21-3.5).

(4) BMX-4 District Height Setback. For a minimum of 50 percent of any contiguous street
frontage, no portion of a structure located on a lot adjacent to a street shall exceed a
height which is intersected by a plane over the buildable area which makes an angle of 65
degrees with the horizontal at ground elevation at the center line of the street (see Figure
21-3.9).

(5) Street Setbacks and Street Trees.
(A) Within the BMX-3 district, no portion of a structure shall exceed a height
equal to twice the distance from the structure to the vertical projection of the
center line of any street (see Figure 21-3.7).
(B) If a street tree plan exists for the street which fronts the project, the applicant
shall install a street tree or trees, as required by the director.

(6) BMX-3 District Open Space Bonus.
(A) For each square foot of public open space provided, five square feet of floor
area may be added, exclusive of required yards;
(B) For each square foot of arcade area provided, three square feet of floor area
may be added, exclusive of required yards; and
(C) Maximum density with open space bonuses shall not exceed an FAR as
provided under Table 21-3.4.

(7) BMX-4 District Open Space Bonus.
(A) For each square foot of public open space provided, 10 square feet of floor
area may be added. If provided, front yards may be included as public open space;
(B) For each square foot of arcade area provided, five square feet of floor area
may be added;
(C) Maximum density with open space bonuses shall not exceed an FAR as
provided under Table 21-3.4; and
(D) For developments which exceed a height of 350 feet, for each square foot of
public open space provided, 10 square feet of floor area may be added below
350 feet of building height or seven square feet of floor area may be added
above 350 feet of building height. If provided, front yards may be included as
public open space.

(8) BMX-4 District Heights Above 350 Feet. For developments which exceed a height of
350 feet, but are permitted higher heights on the zoning maps, refer to Section 21-3.120-
1.

(9) Historic Resources Bonus. For developments in the BMX-4 district which exceed a
height of 350 feet, refer to Section 21-3.120-1 for provisions relating to additional floor
area permitted for preservation of historic resources.

1. There shall be no minimum lot area, width or depth for off-site parking facilities.
2. For duplex lots, 5 feet for any portion of any structure not located on the common property line; the required side yard is zero feet for that portion of the lot containing the common wall.
3. Where the side or rear property line of a zoning lot adjoins the side or rear yard of a zoning lot in a residential, apartment or apartment mixed use district, there shall be a side or rear yard which conforms to the yard requirements for dwelling use of the adjoining district. In addition, see Section 21-4.70-1 for landscaping and buffering requirements.
4. Where a zoning lot adjoins a residential, apartment or apartment mixed use district and forms a continuous front yard, the lot or the first 100 feet of the lot (whichever is less) shall conform to the front yard requirements for the dwelling use of the adjoining district (see Figure 21-3.6).
5. Where a zoning lot is located at a street or road creates an area of open space or an arcade, equivalent to the required yard area may be provided elsewhere on the zoning lot (see Figure 21-3.8).

n/a = Not applicable
(Added by Ord. 99-12; Am. Ord. 03-37)

### Sec. 21-3.130 Industrial districts--Purpose and intent.

(a) The purpose of the industrial districts is to recognize the importance of industrial uses to the welfare of city residents by providing areas for industrial uses without undue competition from other uses and ensuring compatibility with nonindustrial areas. Typical uses include manufacturing, refining, sorting, processing and storage of materials and products. Limited business activities that directly support the industrial uses or those employed by industries therein are permitted in these districts.

(b) Heavy industrial uses such as refining of petroleum and manufacturing of explosives will only be allowed under certain conditions and in areas well away from other districts.

(c) To minimize potential adverse impacts on property and persons in the same or neighboring districts, standards are established for the more noxious uses permitted in these districts.

(d) The intent of the I-1 limited industrial district is to provide areas for some of the industrial employment and service needs of rural and suburban communities. It is intended to accommodate light manufacturing, including handcrafted goods as well as "high technology industries" such as telecommunications, computer parts manufacturing, and research and development. Uses in this district are limited to those which have few environmental impacts and those which complement the development scale of communities they would serve.

(e) The intent of the I-2 intensive industrial district is to set aside areas for the full range of industrial uses necessary to support the city. It is intended for areas with necessary supporting public infrastructure, near major transportation systems and with other locational characteristics necessary to support industrial centers. It shall be located in areas away from residential communities where certain heavy industrial uses would be allowed.

(f) The intent of the I-3 waterfront industrial district is to set aside areas for the full range of industrial uses necessary to support the city. It is intended for areas with necessary supporting public infrastructure, near major transportation systems and with other locational characteristics necessary to support industrial centers. It shall be located in areas away from residential communities where certain heavy industrial uses would be allowed.

(Added by Ord. 99-12)

### Sec. 21-3.130-1 Industrial uses and development standards.

(a) Within the industrial districts, permitted uses and structures shall be as enumerated in Table 21-3.

(b) Within the industrial districts, development standards shall be as enumerated in Table 21-3.5.

(c) Additional Development Standards.
(1) Transitional Height Setbacks. Where a zoning lot adjoins a zoning lot in a residential, apartment, apartment mixed use or resort district, the residential, apartment, apartment mixed use or resort district height setbacks shall be applicable at the buildable area boundary line on the side of the industrial zoning lot (see Figure 21-3.5).

(2) Street Setbacks. In the I-2 and I-3 districts, on zoning lots adjacent to a street, no portion of a structure shall exceed a height equal to twice the distance from the structure to the vertical projection of the center line of the street (see Figure 21-3.7).

(Added by Ord. 99-12)

Sec. 21-3.140 Industrial-commercial mixed use district—Purpose and intent.
(a) The purpose of the industrial-commercial mixed use district is to allow mixing of some industrial uses with other uses. The intent of this district is to provide for areas of diversified businesses and employment opportunities by permitting a broad range of uses, without exposing nonindustrial uses to unsafe and unhealthy environments. To a limited extent, some residential uses shall be permitted.
(b) This district is intended to promote and maintain a viable mix of light industrial and commercial uses.
(Added by Ord. 99-12)

Sec. 21-3.140-1 Industrial-commercial mixed use district uses and development standards.
(a) Within the industrial-commercial mixed use district, permitted uses and structures shall be as enumerated in Table 21-3.
(b) Within the industrial-commercial mixed use district, development standards shall be as enumerated in Table 21-3.5.
(c) Additional Development Standards.
(1) Density. For purposes of this subdivision, uses marked by a superscript 2 in Table 21-3 shall be considered "commercial uses." The maximum FAR for a zoning lot shall be as follows:

| Minimum FAR Provided the following minimum FAR, in aggregate, of the total floor area on the zoning lot is devoted to permitted "noncommercial" principal uses |
|---|---|
| 1.5 | 0.00 |
| 2.0 | 0.5 |
| 2.5 | 0.75 |

Except a maximum 2.5 FAR with no limit for floor area devoted to commercial uses shall be applicable to zoning lots of 10,000 square feet or less in areas that were of record on June 14, 1993, or to zoning lots within any technology park so designated in Chapter 24 for which there has been recorded a unilateral agreement pursuant to Section 21-2.70, which includes limitations on the permitted uses in the technology park.

(2) Transitional Height Setbacks.
(A) Where a zoning lot adjoins a zoning lot in a residential, A-1 or AMX-1 district, the residential district height setback shall be applicable at the buildable area boundary line of the adjoining side of the IMX-1 zoning lot (see Figure 21-3.5).
(B) Where a zoning lot adjoins a zoning lot in an A-2, A-3, AMX-2, AMX-3, or resort district, no portion of a structure shall exceed 40 feet in height along the buildable area boundary line on the adjoining side of the IMX-1 zoning lot, provided that additional height shall be permitted if the additional height is set back one foot from the buildable area boundary line for each 10 feet in height or fraction thereof. This setback shall be a continuous plane from the top of the structure to the beginning of the additional height (see Figure 21-3.5).

(3) Street Setbacks. On zoning lots adjacent to a street, no portion of a structure shall exceed a height equal to twice the distance from the structure to the vertical projection of the center line of the street (see Figure 21-3.7).

1Except for necessary access drives and walkways, all front yards shall be landscaped. Where a zoning lot adjoins a residential, apartment, apartment mixed use or resort district and forms a continuous front yard, the lot or the first 100 feet of the lot (whichever is less) shall conform to the front yard requirements for the dwelling use of the adjoining district (see Figure 21-3.6).

2Where the side or rear property line of a zoning lot adjoins the side or rear yard of a zoning lot in a residential, apartment, apartment mixed use or resort district, there shall be a side or rear yard which conforms to the side or rear yard requirements for dwelling use of the adjoining district. In the I-3 district only, this yard shall be not less than 15 feet. In addition, see Section 21-4.70-1 for landscaping and buffering requirements.

3Where the side or rear property line of a zoning lot adjoins the side or rear yard of a zoning lot in a residential, apartment, apartment mixed use or resort district, there shall be a side or rear yard which conforms to the side or rear yard requirements for dwelling use of the adjoining district.
